

RECREATIONAL AND SCHOOL TEAMS

Travelling on a hockey tour is one of the great highlights of the season. So, taking the team to Holland is sure to prove a wonderful experience.

For us there is no real difference between professional and recreational teams. They both have the freedom in designing their own tour. All the services we offer professional teams, for example, specialized training clinics, are open to recreational teams as well.

Where professional teams get to see little beyond the hockey pitch, recreational teams can choose from our vast array of sightseeing options. We organize sightseeing excursions to all major attractions in Holland, but also cater for visits to first league hockey matches.

MATCHING THE RIGHT LEVEL

It can be difficult to match teams. We ask for as much information as you can give us to best judge your team's level. If the level of the first opponent proves to be too low or too high, we will be able to make last minute adjustments for the coming matches, as – on both sides – it is important to have an even match.
